IN JAR OF BRINE.

VICTORIA, It, C., Nov. 16.-An event which speaks for itself of the lawless state of the country bordering on and beyond the new tenitory. Kicwloon, China, took place quite recently. A gang of rotibers kidnuned a son of seven years with A view of holding him for ransom. A message was sent to the father demamiling a rancom somewhat beyond hts means, and the father said he could not pay it. The conspirators replied that if the money was not sent within a specified time the boy would be returned to him in pickie.

No money having been sent, they put their threat into effect, the dead body of the lad being returned to the father in a jar of brine. Apparently the Chinese authorities made no effort to arrest the murderers.

knows just how to steer a vessel to bring it safely through the shoals and out into the open. Just so the Encyclopædia Britannica is the one absolutely reliable guide for the voyage of life. One cannot go wrong if its teachings are followed. It tells the mistakes men have made; how others have succeeded and why. An intelligent man gets good from the experiences of others and steers clear of the rocks they ran against. The very presence of the Encyclo-

pædia Britannica in a house gives the place an intellectual tone. A library of thousands of volumes does not offer such an opportunity for successful home study and development as this masterpiece of literature. There is no more instructive reading on earth than that contained in its 30 volumes. To a life whose current runs toward the future, this great work is indispensable. Just now you can secure the
